

EMAILING SCHOOLS

Generic email: staying in touch with teachers at a very low price.

Generic emails are emailed to schools at their standard administrative address. On the subject line there is an indication of the person you wish to reach – as in “Attn: The Head of Maths”.

The general selections...

Selection	Price inc transmission

5100 Secondary schools (the list includes the schools with sixth forms)	£260
5000 Largest primary schools	£260
10,000 Largest primary schools	£510

*Additionally in there will be a £10 set up charge for all transmissions.

The Guarantee: If you send us a copy of your email in advance we will, at your request, review the leaflet and tell you what sort of open rate and click through rate we believe you will get.

At that point you can accept our estimate, and we will then guarantee that you will get this level of activity. Additionally (at your request) we can give you some thoughts on how this click through and open rate could be enhanced. You can then either ask us to re-write the piece for you (for which a fee is payable) or you can re-write it yourself, re-submit it, and we will then give you a new estimate of the open rate and click through rate.

Please note that in order to validate the click through rate and open rate, you must pay for this service (see below).

Tracking emails: If you want to know your open rate and track clicks to your website there is a fee of £20. This service must be booked in, in advance of the emailing taking place.

Outright purchase and self-mailing: You can rent the email list so that you can email the schools yourself. In this case we do recommend that you utilise specifically written software for the purpose, and have arrangements with an ISP that allows bulk transmission.

Alternatively you can rent the list for twelve uses during a period of one year, at a price of six times the one-off price. Additionally you will receive updated email lists on three, six and nine months.
